

additional SRI experiment

1. Validation with internal Agency Resources.

- a) double blind envelope drawing reproduction

Using trapped double sealed envelopes, test subjects ability at reproducing drawing. That is, produce a set of simple line drawing, place in trapped envelope and make a key which would be held by TSD. Give envelope to subject & ask him to reproduce or take his reproductions and envelope back to TSD. Verify envelopes have not been opened and compare reproductions with key

- b) Include a set of drawings, figures etc in S.W. Determine his ability against this target inside envelope and without envelope
